Butter Wraps Must Be Printed. The dairy and food department has recently decided to enforce to the letter the law that all dairy butter must be plainly and legibly marked as such, bear the name and address of the maker and the words, "16 ounces full weight" or "32 ounces full weight." The regulation is such that printed wrappers are a necessity and The Sentinel this week makes a special offer.

WHY YOU SHOULD USE

Dr. Hess' Poultry Panacea

FIRST-Poultry Pan-a-ce-a cures Gapes, because it contains, among other things, Hyposulphite Soda, that is quickly taken up by the blood, which nauseates the worm, causes it to let go its hold from the walls of the wind pipe, and then the chick is able to throw it off. SECOND-It does prevent and cure Leg Weakness, be-

cause it contains, among other things, Nux Vomica, the greatest nerve tonic known. After feeding Pan-a-ce-a the chick speedily regains its locomotion. THIRD-It does regulate the many little bowel troubles, to

which the chick is subject, because it contains internal antiseptics for that purpose, FOURTH-Being composed of the very best tonics, iron,

internal antiseptics, etc., it calls into healthy action every organ of the fowl body and insures rapid development, early broilers. FIFTH-We sell every package on a positive guarantee, and we will reimburse you for every package returned which

proves unsatisfactory. But-That person don't live that can make a success with poultry and ignore the louse question. That's why we associate INSTANT louse killer so closely with Pan-a-ce-a. They go hand in hand. I Of course now is just the time to use Dr. Hess' Stock Tonic to prepare horses for spring work, and then there is Dr. Hess' Dip and Disinfectant.

Remember, we carry Fisher's Chick Food and Scratch Food. Special price in sack lots. If you want the best Flour, get it from us
